Ministry News

We are happy to be back home. After our recent trip to Peru, due to the COVID pandemic, we were forced to stay longer than expected. The same night we were to return, the borders of Peru were closed. Thankfully, we were able to return on a repatriation flight. By God's grace, Missy, our daughter Shey, our little Nobi, and I returned home healthy. We have remained at home and only going out for necessities.

- During our February trip to Peru, we conducted our annual Summer Pastor's conference. Because it was a little before the COVID pandemic, we were still able to meet, however because of some early restrictions, only those that could make the journey were in attendance. We were able to meet with most of our core leaders, allowing us to make future plans for ways of communication and additional teachings.
- We have currently been working via video chats. Our most common have been pre-marital counseling to two couples, who wish to marry once the time allows. We also have been working with a new co-worker who will be teaching/working with the youth in his community.
- Also, via video chats, we have been able to carry on our one on one discipleships with one couple in training, and three new young men who wish to work within their prospective communities.

that we will use to reach our coworkers and beyond. Those without internet access are being contacted by phone, when available.

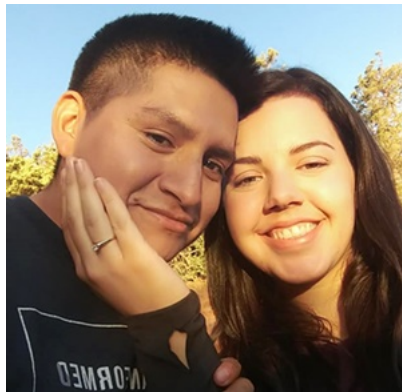

Family News

As a family, we are thankful that everyone is in good health. Since our return from Peru, we did our self quarantine, and other than getting groceries or doctor visits; we have opted to stay home. We have been enjoying the extra one on one time with our children. Here is a little bit of our family news:

- Missy and I continue to work hard on all our translation materials. Since we have gone online, we are working on providing timely messages and teachings for our co-workers.
- Our son Noconi and his wife Alicia, continue to do well in South Carolina. Noconi is fortunate to continue his work with the city of Charleston. Our eldest daughter, Zoyla, has also been fortunate to keep her job during the whole pandemic.
- Shey and Athalia have enrolled for another school year. They will continue at Grand Canyon University and Athalia remain at the University of Colorado, Colorado Springs; both online.
- Our grandson Joshua, has been very eager to start 4th grade. He started today (August 5), online. He is happy to see and talk with his friends, even

the reservation, we have had to wait for court openings. Our dates have been changed several times because of COVID, but we now have a confirmed court date scheduled for August 13. We are anxiously waiting for this to be at an end.

- We have been blessed to have our son, Efrain, home for six months now. Once Arizona first 'opened up', he traveled to Flagstaff to propose to his girlfriend, Kristin.

We are praying that you and your loved ones are all safe and of good health. We have lost a family member due to COVID complications, and Missy has several other relatives that are currently in-home quarantine and in the hospital. We pray that our Lord will provide a hedge of protection over you.
