We've found our Farm!

Over 400 meals served daily!

Full canal irrigation on all the property!

Large mature producing orchard with 7 varieties of tropical trees!

Plenty of room for the chicken farm!

Dear Ones:

May I make a very personal prayer request? Will you pray for me that my faith will be increased? As one of our supporters, you are part of the ongoing miracle God has performed in our lives and ministry.

We have found the farm for the homes and it is better than our wildest dreams. We will be able to raise much of the produce needed by the homes as well as chickens and eggs on the four-acre property.

On coveted river bottom land, it has a full irrigation system placed by Mexico's famed Chippingo Agricultural University 30+ years ago. Not only does it have fertile fields that will grow much of what the homes use, but it has a mature producing orchard with mangos, coconuts, bananas, avocados, oranges, grapefruits and maracaibo.

Becky and I just returned from Mexico. While in Tlapa we viewed properties and found the perfect farm. It has everything we had dreamed of in abundance and is available for \$75,000. Tomatoes can produce year-round with a simple plastic greenhouse that we will build as well as a chicken house for eggs and meat. We will fence the property and build a director's cottage and an open sided palapa for the agriculture school classes and special meetings.

As of February 8, we have received \$31,447. We have until April to complete the \$75,000 payment. They've asked until their corn harvest is complete to begin title transfer to the homes for the property. This gives us a few more weeks to complete the funding. Consider a one-time gift. Please pray with us for a miracle.

In His Love,

Mike Patterson
Psalm 2:8
Mike Patterson

P.S. We are still facing great personal needs. Due to Covid two more supporting churches have discontinued support. We ask your prayers.
