## MISSIONARY SERVICES

December 1, 2021

Dear Ventura Jubilee Fellowship,

Missionary Communication Workshop 2021 is in the books. We had a good number of missionaries attending, and they made good progress. The following are some of the comments we received from the missionaries.

·Coming into this workshop, I would shake like a leaf anytime I had to speak in public. By the end of the week, I gained so much confidence in myself and the skills I learned.

·This entire week was so worth it! I grew by leaps and bounds each day. Though the workshop was challenging, I learned principles that will help my ministry for the rest of my life.

·This workshop was exactly what I needed to be pushed out of my comfort zone and learn better ways to share in an effective way.

·This workshop has transformed my communication ability. It has given me effective tools to go out and teach God's Word to women. I now have a desire to teach along with the confidence to do it well.

·This workshop helped strengthen areas that I was already strong in, and showed me areas of my speaking that I did not even know I lacked. I left excited, encouraged and better prepared to clearly present my ministry and burden.

Thanks for making these results possible. All of these missionaries attended the workshop at no cost to them because of your generous support.
