...ON A STRATEGIC MISSION TO BUILD A CHURCH WITHIN REACH OF EVERY PERSON ON EARTH.

50+ Nations 300+ projects

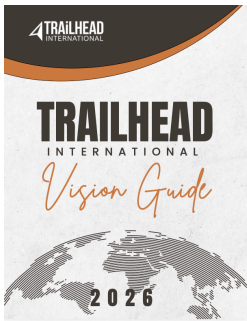

## A Major Milestone in Costa Rica:

In June, we sent \$250,000 to Costa Rica to fund the construction of two new church facilities, one in Liberia, Guanacaste, and one in Santo Domingo, Heredia. This is a big moment, and it would not have happened without the faithful partnership of churches and supporters like you. These aren't just buildings. They are gospel beachheads, places where communities will hear the name of Jesus for the first time and where disciples will be made for generations to come.

## The Vision for 2026:

The ministry pace is accelerating. In 2024, we saw one new church construction project funded per week. In 2025, it moved to once every six days. Our goal for 2026 is **one church every five days**. That's not a marketing slogan. That's a real, measurable target rooted in the Great Commission. More churches mean more people coming to Christ. If your church wants to be part of that, your missions budget can go exponential through what is happening.

Mission trips are available. Trailhead currently operates in 54 countries worldwide and has 400+ projects, with a place for **your team** in this story.

**PROJECT LOCATION**  
Los Pinos, Havana, Cuba

**PROJECT**  
Church Land and Facility  
**COST \$125,000.00**

**PARTNER** Familia Avance  
**CURRENT STATUS**  
Congregation mobile

**100% FUNDED!**

## Ride Extreme in the USA for a Rally

Ride Extreme Ozarks Edition is officially on the calendar for June 2027. This "Ride Extreme" adventure started in 2015, with our first event in 2017. Since then, these trips have raised a combined \$2 million for church facilities. Our planning team just finished scouting in NW Arkansas, and it is going to be incredible. Bring a dirt bike, road bike (Harley, Indian, Honda), 4x4, or your car. Come build lasting friendships and raise funds that change the world.

Because of the Great Commission,
